FIND OUT WHAT MOMIT HOME THERMOSTAT CAN DO FOR YOU

APP CONTROL

Through the momit Home Thermostat App, you can make all the adjustments you need without leaving your sofa.

SMART

It learns from your habits to ensure real savings and a maximum level of comfort.

HEAT CONTROL

Absolute control of the heating in your home. You can adjust the temperature through the App or from the thermostat.

PORTABLE

You can take your momit Home Thermostat from room to room. All you need for it to be cordless is the momit Extension Kit.

MY BUDGET

With this function you can set a monthly budget to optimize your energy savings to the max.

INTERNET CONNECTION

momit Home Thermostat connects to the Internet through the momit Gateway. This way you can control the temperature wherever you are.

SCHEDULE

You can program your thermostat according to your schedule to optimise energy savings.

GEOLOCATION

momit Home Thermostat turns the boiler on or off based on your location so that you enjoy the perfect temperature when you get home.

PRESENCE

With its motion sensor, momit Home Thermostat detects whether someone is home or not, turning off the heating if there's no presence to avoid unnecessary energy consumption.

WEATHER FORECAST

You will be able to see the weeks' temperature on the thermostat or App.
